**McCLURE**<sup>™</sup>  
ENGINEERING CO.

McClure Engineering Company (MEC) was founded in 1956 by Jon E. McClure. Over the past 62 years, we have been building strong communities throughout Iowa, the Midwest, and the United States by providing people-driven solutions that redefine the boundaries of engineering and community development. We are trusted advisors for our clients in the fields of agricultural drainage, aviation, civil, construction administration, placemaking, planning, land development, rail, survey, structural, transportation, and water.

MEC is Great Place to Work<sup>®</sup> certified and we are always looking for the next generation of talented engineers and planners. Visit [mecresults.com](http://mecresults.com) to learn more about opportunities to build strong communities with us.
